

## >>The ComNet project

Networking is a key competence for practitioners in education, and networks are considered to have considerable potential for solving structural problems.

**ComNet** is a project financed by the European Commission's Lifelong Learning Programme and builds on the results of the preceding project, **Euoweaving**, which developed the publication, **The Art of Networking** and other useful resources for actors in European networks.

**ComNet** is aimed at professionals in education – teachers, trainers, programme developers, managers, researchers and evaluators – who are already involved in networks, or may wish to be so in the future.

**ComNet** offers training opportunities for actors and managers of European networks in education.

## >>ComNet Training Course: The Art of Networking

The **ComNet** project consortium will organise a European training course on effective networking and network management covering the following aspects:

- > Social networking skills
- > Network theory
- > Networks in the EU funding programmes
- > The setting-up of a network
- > Network management
- > ICT tools for networks
- > Learning in a network
- > Network evaluation
- > Policy & advocacy
- > Making the network sustainable

Date: **24-29 November 2008**

Venue: the historical castle and congress centre of **Alden Biesen**, Belgium ([www.alden-biesen.be](http://www.alden-biesen.be)).

Participation is free of charge: course fees as well as costs for accommodation and meals are covered by the **ComNet** project budget.
