

>>The ComNet project

Networking is a key competence for practitioners in education, and networks are considered to have considerable potential for solving structural problems.

ComNet is a project financed by the European Commission's Lifelong Learning Programme and builds on the results of the preceding project, **Euroweaving**, which developed the publication, **The Art of Networking** and other useful resources for actors in European networks.

ComNet is aimed at professionals in education – teachers, trainers, programme developers, managers, researchers and evaluators – who are already involved in networks, or may wish to be so in the future.

ComNet offers training opportunities for actors and managers of European networks in education.

>>Successful Piloting of Course The Art of Networking

From 24-29 November the training course **The Art of Networking** was successfully piloted at Alden Biesen. 26 participants - coming from adult education centres, universities, teacher education institutions, NGOs and regional authorities in 17 countries had been selected from a large number of applicants.

The response to the course was overwhelmingly positive and gave the organisers valuable feedback how to further optimize the training concept and materials.
