
>>Registration for European Training on Networking still open

Networking is a key competence for practitioners in education, and networks are considered to have considerable potential for solving structural problems.

ComNet is a project financed by the European Commission's Lifelong Learning Programme and builds on the results of the preceding project, **Euroweaving**, which developed the publication, **The Art of Networking** and other useful resources for actors in European networks.

ComNet offers training for professionals in education – teachers, trainers, programme developers, managers, researchers and evaluators – who are already involved in networks, or may wish to be so in the future.

To participate in the European training course **The Art of Networking** in Alden Biesen on **28 September-3 October 2009** please contact

myriam.swinnen@cjsm.vlaanderen.be

Registration is open until **20 September 2009**.
