

>>New publication on networks in education!

Resource Pack for Networkers (ISBN 978-3-9502772-0-3) is a new publication developed by the grundtvig project ComNet. It contains a range of learning materials which enhance the key competence to act in networks of professionals and institutions in education.

The *Resource Pack for Networkers* is available in English, French and German language versions and can be **downloaded here**.

The English version of the *Resource Pack for Networkers* may also be ordered as a paper document. The publication is free of charge.

Please order here.

>>ComNet: A Grundtvig project on networks and networking

Networking is a key competence for practitioners in education, and networks are considered to have considerable potential for solving structural problems.

ComNet is a project financed by the European Commission's Lifelong Learning Programme and builds on the results of the preceding project, **Euoweaving**, which developed the publication, **The Art of Networking** and other useful resources for actors in European networks.

ComNet offers publications, training and consulting for professionals in education – teachers, trainers, programme developers, managers, researchers and evaluators – who are already involved in networks, or may wish to be so in the future.
